

Terry Chen

Senior iOS / Mobile Product & Growth Engineer

Taiwan (GMT+8) - Open to remote, global teams - English / Mandarin Chinese

Email: vul354@gmail.com - LinkedIn: linkedin.com/in/terry-chen-3350a681 - GitHub: github.com/TerryCK -

App Store: apps.apple.com/tw/developer/chen-guan-jhen/id1168936144

PROFESSIONAL SUMMARY

Senior iOS engineer with 9+ years building consumer mobile products used by millions. Specialize in growth engineering: designing and shipping A/B experiments grounded in behavioral psychology to improve activation, retention, app-store ratings, and subscription revenue. Engineer on Walli (10M+ downloads, flagship app at Tap) and Charm (AI photo editor and avatars). Owned conversion and retention surfaces end to end - onboarding, paywall, review prompts, and re-engagement - with measured impact. Strong in Swift, SwiftUI, Combine, StoreKit 2, feature-flag experimentation, and mobile analytics.

CORE SKILLS

Mobile Development: Swift, SwiftUI, Combine, UIKit, iOS (9+ years), Android, StoreKit 2

Experimentation: A/B testing, feature flags, Firebase Remote Config, funnel analysis, statistical significance, hypothesis design

Growth & Analytics: Mixpanel, Amplitude, RevenueCat, App Store Connect, paywall and monetization optimization, behavioral / conversion design, retention

Delivery & Tooling: CI/CD, Fastlane, TestFlight, Git, App Store release management

AI-Assisted Engineering: LLM tooling, AI-assisted development, rapid prototyping, automation

PROFESSIONAL EXPERIENCE

Senior iOS / Mobile Product & Growth Engineer - Tap

Taiwan (Remote) - Present

Growth-focused iOS engineer across Tap's consumer app portfolio. Own conversion and retention surfaces and run a continuous experimentation program (40+ A/B experiments designed and shipped), pairing clean SwiftUI implementation with behavioral-psychology-driven hypotheses.

Walli - 4K HD Wallpapers (flagship app, 10M+ downloads, 4.5-star on Google Play, featured on Google Pixel devices). App Store: apps.apple.com/app/id1061097668 | Google Play: play.google.com/store/apps/details?id=com.shanga.walli

- Increased trial starts by **+27%** by rebuilding the paywall using price anchoring (high-tier lifetime anchor), a decoy tier, and an annual default plan; lifted subscription ARPU by **+19%** through a follow-on pricing test.
- Improved D7 retention by **+12%** and reduced onboarding drop-off by **-18%** by reordering onboarding so users complete a first action (wallpaper applied) before any permission or signup ask (goal-gradient and Zeigarnik effects).

- Raised App Store rating from **4.3 to 4.6** and **doubled review submission rate** by moving the review prompt to the post-success emotional peak, after delivering free value first (peak-end rule and reciprocity).

Charm - AI Photo Editor & Avatars (one-tap retouch, AI avatars, photo enhancement). App Store: apps.apple.com/app/id1170801250

- Increased AI-avatar generation-to-purchase conversion by **+34%** by showing the user's generated result (watermarked) before the paywall, leveraging the endowment and IKEA effects.
- Increased retouch upsell conversion by **+22%** by engineering a peak-end before/after reveal on the user's own photo positioned immediately before the upsell.
- Increased first-session activation (reaching the first edited photo) by **+41%** by removing pre-value friction from onboarding.

Cross-product growth and platform work:

- Lifted blended paywall conversion by **+31%** across products through experiments combining social proof, scarcity, and loss aversion on pricing screens (**+16%**) and fresh-start / loss-aversion re-engagement notifications (**+23%** 7-day reactivation).
- Built variants behind feature flags (Firebase Remote Config) with user-level randomization, sample-size power analysis, guardrail metrics, and honest significance testing for instant rollback and reliable reads.
- Drove modern app architecture with SwiftUI and Combine; owned CI/CD automation from commit to TestFlight and store distribution.

Indie iOS Developer (Solo Products) - App Store, CHEN GUAN-JHEN

Taiwan - 9 years cumulative

- Designed, built, and shipped **4 live consumer iOS apps** single-handedly, accumulating **16,000+ App Store ratings** (**4.7-star average**) and trust from millions of users.
- Specialized in location-aware, real-time data products serving everyday public needs across Taiwan; owned the full lifecycle: product, design, engineering, release, and live operations.
- Garbage Truck Live Tracker - real-time GPS tracking with arrival alerts: **4.3 stars, 8,808 ratings**. App Store: apps.apple.com/app/id1527915502
- Go Battery Station - Gogoro swap-station locator and multi-stop route planner: **4.7 stars, 7,570 ratings**. App Store: apps.apple.com/app/id1271037665
- UBIke Route Planner - YouBike shared-bike journey planning: **4.8 stars**. App Store: apps.apple.com/app/id6587562314
- 2Live - Live Wallpaper Creator - turn any video into a live wallpaper: **5.0 stars** (recent release). App Store: apps.apple.com/app/id6749788676

SELECTED A/B EXPERIMENTS (BEHAVIORAL PSYCHOLOGY APPLIED)

- **Anchor high, default to annual (Walli paywall):** Anchoring, decoy effect, default bias. Result: **+27% trial starts**, **+19% ARPU**.
- **Show the result before the price (Charm avatar funnel):** Endowment effect, IKEA effect, loss aversion. Result: **+34% generation-to-purchase**.
- **Peak-end before/after reveal (Charm retouch):** Peak-end rule, contrast effect. Result: **+22% upsell conversion**.

- **Complete a first action before any ask (Walli onboarding):** Goal-gradient, Zeigarnik effect, commitment. Result: **+12% D7 retention**, **-18% drop-off**.
- **Ask for the review at the emotional peak (Walli):** Peak-end rule, reciprocity. Result: **rating 4.3 to 4.6**, **2x review rate**.
- **Social proof plus a real expiring offer (pricing screen):** Social proof, scarcity, loss aversion. Result: **+16% paywall conversion**.
- **Fresh-start re-engagement push (both apps):** Fresh-start effect, loss aversion. Result: **+23% 7-day reactivation**.

EDUCATION

National Yunlin University of Science and Technology

Master of Engineering (M.E.), Department of Electronic Engineering, 2012-2014

National Yunlin University of Science and Technology

Bachelor of Engineering (B.E.), Department of Electronic Engineering, 2008-2012

AWARDS

- Pittsburgh Invention Exhibition - Gold Medal (2014)
- Taipei International Invention Show - Gold Award (2012)
- Chairman's Special Award (2011)
